

## Arkansas Feral Hog Control Survey

---

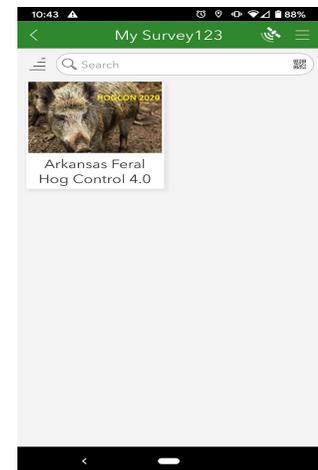

Do you remove feral hogs on private property by trapping or shooting? If so, please help the Arkansas Feral Hog Eradication Task Force by uploading removal information on the Arkansas feral hog control survey. Information uploaded to this survey will help better inform state and federal agencies tasked with feral hog eradication. Any information you submit will be uploaded to the task force database and will help the task force better understand how many feral hogs are being removed monthly by private individuals, state agencies, and federal agencies. Future management decisions that will help reduce the feral hog population within Arkansas depends on information from private landowners just as much as state and federal agencies. Any information you can submit is participation in an effort to preserve native ecosystems, wildlife, and natural resources. The feral hog eradication task force is working on a monthly removal map that will depict how many feral hogs have been removed by county for each month. Information from individuals that actively participate in this survey will be included in this map.

## How do I download the Survey?

- 1) Depending on your mobile device go to either the Apple iTunes store for iPhone or the Google play store for android phones and download the Survey123 app. The image here is the icon you are looking for.

- 2) Once you have the app downloaded you will then need to scan the QR code to access the feral hog control survey. There is a QR code scanner within the app. You will see a QR scanner icon at the top right on the screen in the app. The QR code scanner is indicated by the arrow.

- 3) If you want to access the feral hog control survey through your computer browser you can do that with the link here.

<https://arcg.is/1KmGuu>

- 4) Attached is a link to a dashboard that displays the current state and individual county removal totals. Check this dashboard to see in real time how many feral hogs have been removed from your county. <https://arcg.is/1GCqGe>
